

**PHILANTHROPY
TANK**®

Empowering **CHANGE**makers

The Philanthropy Tank Story

During his tenure as a founding board member of Advisors for Philanthropic Impact, Evan Deoul had an idea to create an organization to mentor young leaders who had innovative ideas to address some of the most challenging issues facing Palm Beach County. Evan partnered with fellow board member, Michael Kohner and in 2016 – Philanthropy Tank, Incorporated was born.

In 2020, Philanthropy Tank (PT) celebrated its fifth year of serving students in our community and our first year in Baltimore, Maryland. Philanthropy Tank empowers and inspires the next generation of change leaders – our youth! Palm Beach County and Baltimore students 8th-12th grade, identify issues that confront our community. The program challenges, empowers, and equips students to develop and execute sustainable initiatives and solutions to solve those problems. Philanthropist Investors fund student initiatives, investing in their own community projects. Through one-to-one mentoring, philanthropist investors fuel students' desire, helping them execute initiatives, while increasing their ability to make meaningful change.

The fundamental aims of Philanthropy Tank are to help shape students' leadership paths and, through their creative solutions, address and improve social issues in our community while embracing the core of our mission - **Empowering CHANGEmakers.**

Founders Evan Deoul (l) and Michael Kohner.

Our Impact

Philanthropy Tank is unique in that our programs are conceived, led, and implemented by the students. The students have a support team to advise and mentor them through the development and strategic planning process of their program. Philanthropist Investors give of their own charitable dollars and select those programs that they would like to support and champion. We do not assign the programs. This has been a successful element as we want to ensure that the programs are of personal interest and passion for those who will be embarking on mentorships.

Since our inception, Philanthropy Tank has engaged over 500 teens and launched 48 programs impacting hundreds of thousands of individuals who benefitted from the services and resources provided. We have awarded over \$600,000 in programming funds. Baltimore alone awarded \$100,000 to 8 projects in its inaugural year. Of the programs launched, 85% completed their intended program goals and a total of 65% of our Year One through Year Five programs remain active, sustainable programs serving their communities. Over a third of all the programs awarded have progressed and acquired their own 501c3 status, becoming independent nonprofit organizations.

Diversity, Equity and Inclusion

Philanthropy Tank strives to reach all teens who would like to participate in the application process. That means students in traditional and non-traditional learning environments. In addition to outreach efforts with school systems, our team has established relationships with agencies who work with teens outside of the school setting. This has enabled us to reach at risk teens who now have access to the Philanthropy Tank experience. Diversity and inclusion are key objectives of our strategic plan. It is important that our staffing, leadership, and volunteers reflect the students we engage and the communities we are serve.

Alumni Updates

Bricks Busting Boredom

Team: Daniel and Sarah Clein

Bricks Busting Boredom is a 501(c)3 student-led organization that brings creativity and smiles into children's hospitals with LEGO bricks.

The program has donated over 3,000 pounds of used Legos, and 1,250 new Lego sets to children's hospitals, homeless shelters, and emergency shelters across Florida.

Recognition: Florida's Champion of Service Award-Gov. Rick Scott Outstanding Youth in Philanthropy Scholarship 2016

Glades Teen Summit

Team: Je'Cynthia Nonar

The Glades Teen Summit was an initiative that sought to break down the barriers between the local community and law enforcement with a secondary goal of teen employability.

The program hosted a summit for 300 Glades area teens to discuss education and employment themes while also fostering partnerships with 40 different non-profit organizations.

Recognition: Boys & Girls Club Palm Beach County's 2017 Youth of Year Top 5 – State of Florida Youth of the Year
